

## The most awarded security system in Europe

Ajax is the next generation of professional security alarm technology. By choosing Ajax, you get integrated protection that is intuitive, tamper proof, pet friendly and responds instantly to intruders. Ajax detects intruders, fires and flood as well as being used to control 12V and 230V devices with integrated automation. The no subscription FREE Ajax App changes the way security is managed. Arm Ajax with a few taps, switch on appliances in advance, get instant notification and photos. Protect your property with Ajax.

### Mobile Panic Feature

Every person connected to your Ajax Alarm system has a virtual 'Panic Button' on their Ajax phone App. When pressed, the Panic Button will alert, in real time, every person connected, advising who activated it and where. All users will receive the notification and a Google Maps Pin Drop identifying the location, globally.

### Button

Wireless button. Can be programmed as a panic button or to control light switches, garage doors, gates etc.

### Remote/SpaceControl

Two-way wireless remote with panic button. Includes false alarm prevention options.

### PhoneApp

Download the **free** app on your android or iPhone.

### Hub2 & Hub2 Plus

Intelligent control panels with ethernet, wireless and cellular connection options. Ajax Hub2 enables the performance of each device in the system. It monitors and controls devices using encrypted signals. Connect up to 100 users, 200 devices and 25 groups. MotionCam detectors enable photo verification when an alert is triggered via the Free Ajax App.

### MotionCam Detector

Incorporates an infrared sensor and Camera. Takes a series of photos and sends them instantly to the users phone when an intruder is detected.

### MotionCam - Photo on Demand (PhOD)

Enables the User to take photos at anytime via the App, on a schedule or if another Ajax device activates.

All Ajax products have a 2 year manufacturer's warranty (excluding batteries).

**Internal Siren**  
Wireless indoor siren.

**External Siren**  
Wireless outdoor siren with strobe light.

**FireProtect 2 (Heat/Smoke)**  
Heat and dual optical sensors detect smoke and filter out humidity, steam, dust, dirt and insects and with a **10 year** sealed battery this device is virtually maintenance free.

**FireProtect 2 (Heat/Smoke/CO)**  
Also detects carbon monoxide.

**Keypad & Keypad Plus**  
Two-way wireless keypad with option for RFID tags and passcards with the Keypad Plus.

**MotionProtect**  
Wireless pet immune motion detector

**MotionProtect Plus**  
Dual microwave and passive. Pet immune up to 20 Kg. For harsh or higher security environments.

**GlassProtect**  
Wireless glass break detector.

**CombiProtect**  
Wireless motion and glass break detectors.

**DoorProtect**  
Wireless magnetic door opening detector.

**DoorProtect Plus /WindowProtect**  
Magnetic opening detector with shock and tilt sensors. Built in accelerometer. Ideal for detecting window movement.

**MotionProtect Curtain - indoor**  
Narrow-beam indoor motion detector, scanning vertically across sliding doors, roller doors & windows. Has many commercial and residential applications.

**LeakProtect**  
For protection against floods. Senses water where it should not be! For use in bathrooms, laundries, kitchens, basements, etc. Sends an alert when water is sensed and also advises when it dries. Detects water leaks and raises the alarm, perfect for under washing machines, in kitchens and water sensitive areas.

**MotionProtect Outdoor**  
Wireless outdoor motion detector with anti-masking function.

**MotionCam Outdoor**  
Recognises intrusion from the very first steps, confirming with a series of photos sent to your phone.

**MotionCam - Photo on Demand (PhOD)**  
Enables the User to take photos at anytime via the App, on a schedule or if another Ajax device activates.

**MultiTransmitter 3EOL**  
18 Zone module for connecting 3rd party wired detectors to an Ajax system and managing via the App.  
  
Supports NC, NO, EOL, 2EOL and 3EOL connections and auto detects EOL resistor values. Separate 12V power supply for hard wired smoke detectors.

**DualCurtain Outdoor**  
The ultimate perimeter security to protect people and property. Two sided options allow you to accurately adjust 30 metres of the detection zone, reacts to intruders, screening out triggers like natural interference, pets and other animals.
